Naval Research Logistics

Contents

Volume 54, 2007

Issue 1, February 2007

Simultaneous Price, Location, and Capacity Decisions on a Line of Time-Sensitive Customers
Gregory Dobson and Euthemia Stavrulaki 1
Published online 31 July 2006

Machine Scheduling with an Availability Constraint and Job Delivery Coordination
Xiuli Wang and T. C. Edwin Cheng 11
Published online 31 July 2006

New Heuristic Methods for the Capacitated Multi-Facility Weber Problem
Necati Aras, İ. Kuban Altınel, and Metin Orbay 21
Published online 26 July 2006

Estimation of Average Backorders for an Assemble-to-Order System with Random Batch Demands through Extreme Statistics
Yingdong Lu 33
Published online 1 August 2006

Discrete Search Allocation Game with False Contacts
Ryusuke Hohzaki 46
Published online 8 August 2006

Sojurn Time Analysis of a Queueing System with Two-Phase Service and Server Vacations
Tsuyoshi Katayama and Kaori Kobayashi 59
Published online 7 August 2006

Effective Attacks in the Salvo Combat Model: Salvo Sizes and Quantities of Targets
Michael J. Armstrong 66
Published online 29 August 2006

Efficient Generation of Cycle Time-Throughput Curves through Simulation and Metamodeling
Feng Yang, Bruce Ankenman, and Barry L. Nelson 78
Published online 29 August 2006

Inventory Control and Periodic Price Discounting Campaigns
Ben A. Chaouch 94
Published online 14 July 2006

Technical Note: Find a Hidden "Treasure"
A. Garnaev 109
Published online 11 October 2006

Issue 2, March 2007

A m-Parallel Crane Scheduling Problem with a Non-crossing Constraint
Andrew Lim, Brian Rodrigues, and Zhou Xu 115
Published online 5 September 2006

Some Probability Functions in Reliability and Their Applications
Ji Hwan Cha and Jie Mi 128
Published online 23 October 2006

Flexibility and Complexity in Periodic Distribution Problems
Peter Francis, Karen Smilowitz, and Michal Tzur 136
Published online 23 October 2006

Robust Tower Location for Code Division Multiple Access Networks
Jay M. Rosenberger and Eli V. Olinick 151
Published online 23 October 2006

The Strategic Effects of a Merger upon Supplier Interactions
Stephen M. Gilbert, Yusen Xia, and Gang Yu 162
Published online 23 October 2006

On the Effectiveness of Top-Down Strategy for Forecasting Autoregressive Demands
Handik Widiarta, S. Viswanathan, and Rajesh Piplani 176
Published online 6 November 2006

Quantifying the Performance Effects of Idle Time Utilization in Multiserver Systems
Naishuo Tian and Zhe George Zhang 189
Published online 6 November 2006

Cyclic Preference Scheduling for Nurses Using Branch and Price
Hadi W. Purnomo and Jonathan F. Bard 200
Published online 6 November 2006

On Valuing Appreciating Human Assets in Services
O. Zeynep Akşin 221
Published online 6 November 2006

Issue 3, April 2007

Optimal Sample Size Allocation for Tests with Multiple Levels of Stress with Extreme Value Regression
H. K. T. Ng, N. Balakrishnan, and P. S. Chan 237
Published online 21 December 2006

Parallel Machine Scheduling with Job Assignment Restrictions
Celia A. Glass and Hans Kellerer 250
Published online 22 December 2006

Designing Safety Space in a Supply Chain to Handle System-Wide Disruptions
Murthy Mudrageda and Frederic H. Murphy 258
Published online 22 December 2006

Bayesian Strategies for Dynamic Pricing in E-Commerce
Eric Cope 265
Published online 22 December 2006

Outbound Supply Chain Network Design with Mode Selection and Lead Time Considerations
Erdem Eskigun, Reha Uzsoy, Paul V. Preckel, George Beaujon, Subramanian Krishnan, and Jeffrey D. Tew 282
Published online 22 December 2006

Optimizing the Quality Control Station Configuration
Michal Penn and Tal Raviv 301
Published online 22 December 2006

Joint Pricing, Assortment, and Inventory Decisions for a Retailer's Product Line
Bacel Maddah and Ebru K. Bish 315
Published online 17 January 2007

A Produce-to-Stock System with Advance Demand Information and Secondary Customers
Seyed M. R. Iravani, Tieming Liu, K. L. Luangkesorn, and David Simchi-Levi 331
Published online 19 January 2007

On Optimality of One-Bug-Look-Ahead Policies for a Software Testing Model
Xiaoyue Jiang, Donglei Du, and Thomas G. Ray 346
Published online 23 January 2007

Issue 4, June 2007

Analysis of Decentralized Multi-Product Pull Systems with Lost Sales
Cigdem Z. Gurgur and Tayfur Altiok 357
Published online 19 January 2007

Kurtosis Correction Method for $\overline{X}$ and R Control Charts for Long-Tailed Symmetrical Distributions
Pandu R. Tadikamalla and Dana G. Popescu 371
Published online 17 January 2007

Combining Standardized Time Series Area and Cramér–von Mises Variance Estimators
David Goldsman, Keebom Kang, Seong-Hee Kim, Andrew F. Seila, and Gamze Tokol 384
Published online 22 January 2007

Exact Expected Values of Variance Estimators for Simulation
Tûba Aktaran-Kalaycı, Christos Alexopoulos, Nilay Tanık Argon, David Goldsman, and James R. Wilson 397
Published online 23 January 2007

Pricing Bridges to Cross a River
Mustapha Bouhtou, Alexander Grigoriev, Stan van Hoesel, Anton F. van der Kraaij, Frits C. R. Spieksma, and Marc Uetz 411
Published online 2 February 2007

Collaboration in Contingent Capacities with Information Asymmetry
Amiya K. Chakravarty and Jun Zhang 421
Published online 2 February 2007

Integrated Capacity, Demand, and Production Planning with Subcontracting and Overtime Options
Yasemin Merzifonluoğlu, Joseph Geunes, and H.E. Romeijn 433
Published online 21 February 2007

Dynamic Learning, Pricing, and Ordering by a Censored Newsvendor
Arnab Bisi and Maqbool Dada 448
Published online 20 February 2007

Performance Evaluation of a Production/Inventory System with Periodic Review and Endogenous Lead Times
Robert N. Boute, Marc R. Lambrecht, and Benny Van Houdt 462
Published online 21 February 2007

Issue 5, August 2007

Editorial: What you should know about ...
Barry L. Nelson 475
Published online 7 May 2007

Cover Story: What You Should Know About Queueing Models to Set Staffing Requirements in Service Systems
Ward Whitt 476
Published online 14 May 2007

On the First Come–First Served Rule in Multi-Echelon Inventory Control
Sven Axsäter 485
Published online 21 February 2007

Rendez-vous Search on a Rectangular Lattice
William H. Ruckle 492
Published online 5 March 2007

Analysis of Practical Policies for a Single Link Distribution System
Luca Bertazzi, Lap Mui Ann Chan, and Maria Grazia Speranza 497
Published online 5 March 2007

Managing Components for Assemble-To-Order Products with Lead-Time-Dependent Pricing: The Full-Shipment Model
Vernon Ning Hsu, Chung Yee Lee, and Kut C. So 510
Published online 5 March 2007

Waiting Time Analysis of the M/G/1 Queue with Finite Retrial Group
Jesus R. Artalejo and A. Gómez-Corral 524
Published online 5 March 2007

Interval Scheduling: A Survey
Antoon W.J. Kolen, Jan Karel Lenstra, Christos H. Papadimitriou, and Frits C.R. Spieksma 530
Published online 16 March 2007

The Importance of Decoupling Recurrent and Disruption Risks in a Supply Chain
Sunil Chopra, Gilles Reinhardt, and Usha Mohan 544
Published online 22 March 2007

Puzzle-Based Storage Systems
Kevin R. Gue and Byung Soo Kim 556
Published online 27 March 2007

On Optimal System Designs in Reliability-Economics Frameworks
Michael R. Dugas and Francisco J. Samaniego 568
Published online 24 May 2007

Technical Note: Worst-Case Performance of Power-of-Two Policies for Serial Inventory Systems with Incremental Quantity Discounts
Brian Q. Rieksts, José A. Ventura, Yale T. Herer, and Daning Sun 583
Published online 27 March 2007

Issue 6, September 2007

Constrained Minimax Optimization of Continuous Search Efforts for the Detection of a Stationary Target
Frédéric Dambreville and Jean-Pierre Le Cadre 589
Published online 28 March 2007

Integrated Production Scheduling and Preventive Maintenance Planning for a Single Machine Under a Cumulative Damage Failure Process
Yarlin Kuo and Zi-Ann Chang 602
Published online 4 June 2007

The Impact of Component Commonality on Composite Assembly Policies
Amit Eynan and Meir J. Rosenblatt 615
Published online 7 May 2007

Probabilistic Solution and Bounds for Serial Inventory Systems with Discounted and Average Costs
Xiuli Chao and Sean X. Zhou 623
Published online 24 April 2007

Lateral Capacity Exchange and Its Impact on Capacity Investment Decisions
Amiya K. Chakravarty and Jun Zhang 632
Published online 20 April 2007

Structured Maintenance Policies on Interior Sample Paths
Lisa M. Maillart and Ludmila Zheltova 645
Published online 17 May 2007

The Minmax Multidimensional Knapsack Problem with Application to a Chance-Constrained Problem
Moshe Kress, Michal Penn, and Maria Polukarov 656
Published online 17 May 2007

The Impact of Manufacturer Rebates on Supply Chain Profits
Xin Chen, Chung-Lun Li, Byong-Duk Rhee, and David Simchi-Levi 667
Published online 13 June 2007

Modeling and Analysis of a Mixed-Model Assembly Line with Stochastic Operation Times
Xiaobo Zhao, Jianyong Liu, Katsuhisa Ohno, and Shigenori Kotani 681
Published online 29 May 2007

Dynamic Lot-Sizing Model with Production Time Windows
Hark-Chin Hwang 692
Published online 4 June 2007

Technical Note: Characterization of Binomial Semivalues Through Delegation Games
Rafael Amer and José Miguel Giménez 702
Published online 18 May 2007

Issue 7, October 2007

From the Editor: Online Supplements to Published Papers in NRL
Barry L. Nelson 709
Published online 8 August 2007

Network Disconnection Problems in a Centralized Network
Young-Soo Myung and Hyun-Joon Kim 710
Published online 4 June 2007

Optimal Burn-In Procedure for Periodically Inspected Systems
Ji Hwan Cha and Jie Mi 720
Published online 18 June 2007

A Branch-and-Price Algorithm for a Targeting Problem
Ojeong Kwon, Kyungsik Lee, Donghan Kang, and Sungsoo Park 732
Published online 22 June 2007

Untruthful Probabilistic Demand Forecasts in Vendor-Managed Revenue-Sharing Contracts: Coordinating the Chain
Yigal Gerchak, Eugene Khmelnitsky, and Lawrence W. Robinson 742
Published online 25 June 2007

Machine Maintenance with Workload Considerations
David L. Kaufman and Mark E. Lewis 750
Published online 19 July 2007

A Nonlinear Continuous Time Optimal Control Model of Dynamic Pricing and Inventory Control with No Backorders
Elodie Adida and Georgia Perakis 767
Published online 19 July 2007

Capacity Allocation to Sales Agents in a Decentralized Logistics Network
Ozgun Caliskan Demirag and Julie L. Swann 796
